Dear Friends,

Welcome to this year's Strafford County Addiction Summit. I am pleased to recognize the Strafford County Public Health Network (SCPHN) which has brought our regional partners together to address addiction in a unified approach. New Hampshire has made significant strides in this area thanks to our public health professionals, first responders, service providers, and all those who are in recovery taking on this work every day.

The Strafford County Public Health Network continues its mission to improve the health, wellness, and quality of life of all individuals in Strafford County through its integrated partnerships. By creating a data-driven strategic plan, the SCPHN has developed well-informed strategies on substance misuse prevention which are specific and aim for maximum efficiency within our communities. I am thankful for your dedication to solving the dynamic issue of substance misuse and prevention.

As your member of Congress, I am proud to support prevention and treatment efforts to ensure New Hampshire receives the necessary federal dollars from agencies, such as the Substance Abuse and Mental Health Services Administration (SAMHSA), to continue our critical work on behalf of those struggling with addiction. We must ensure our government agencies have the tools necessary to support your efforts on the ground, so I have called on Congress to fully fund agencies that are addressing addiction including SAMHSA. I have cosponsored important legislation such as the Mental Health Justice Act to fund mental health professionals that would respond in behavioral health emergencies, as well as the Substance Use Disorder Workforce Act which would increase our SUD medical practitioner workforce, to move the needle forward in our state and across the country. As we all know, the addiction crisis is far from over and I will never stop advocating on behalf of Granite State families, including my own, who know the true toll of this crisis.

Thank you to the many volunteers, staff, and members of the Strafford County Addiction Task Force for continuing your work to advocate and support those struggling with addiction. We know this issue requires not only programmatic and funding support, but also compassionate individuals like you all who remain ready to provide emotional support for those in need. Please do not hesitate to reach out if my office can ever be of assistance.

Sincerely,

A handwritten signature in blue ink that reads "Chris Pappas".

Chris Pappas
Member of Congress
